Summary

Experienced Paramedic transitioning into Tech with a passion for coding. Completed a Full Stack course at John Bryce Academy in 10 months, starting from zero coding experience. Fell in love with programming and created several projects. My background as a Paramedic equipped me with skills in performing under pressure, rapid learning, and adaptive problem-solving. Eager to dive into new challenges in tech, expand my knowledge, and master new technologies with enthusiasm.

Education

Full Stack Web Development Course - John Bryce Academy	2023 - 2024
Emergency Medical Technology: Paramedic - Ariel University	2015 - 2017

Experience

John Bryce Academy – Full Stack Web Development Student 2023 - 2024

- Developed robust and dynamic web applications using a full stack approach.
- Managed and optimized databases with Microsoft SQL Server.
- Leveraged Python, Flask, Django, and SQLAlchemy to create efficient and scalable back-end solutions.
- Crafted responsive and visually appealing front-end interfaces using React, HTML, and CSS.
- Deployed web applications seamlessly using Docker containers and Azure cloud services.

TEREM – Paramedic 2017 - Present

- Provided emergency medical services in a clinic setting.
- Collaborated with a diverse team of doctors and nursing staff to deliver patient care.

TEREM - Nursing Staff Manager 2019 - 2020

- Managing Nursing Staff, Inventory, and Pharmaceuticals in a clinic branch.
- Adapting and overcoming daily challenges during COVID-19 pandemic.

IDF Budgeting Unit - Budgeting Assistant 2017 - 2019

- Managing budgets of military units under Central District Command's supervision.
- Second Year – Head of Budgeting 340th Division

Sha'arei Zedek Hospital – Medical Secretary in L&D Unit 2015 - 2017
